

Volume = a x a x a

or

$$V = a^3$$

Cube

Volume = a x b x c

or

$$V = abc$$

Rectangular Box

Volume = (a x a x b) ÷ 3

or

$$V = \frac{a^2 b}{3}$$

Square-based Pyramid

$$\text{Volume} = (a \times b \times c) \div 6$$

or

$$V = \frac{abc}{6}$$

Triangle-based Pyramid

$$\text{Volume} = 3.14 \times r \times r \times h$$

or

$$V = \pi r^2 h$$

Cylinder
